

Mohammad Adnaan Mansuri

Software Developer

Toronto, Ontario, Canada | adnaan.mansuri2003@gmail.com | +1 (437) 430 8083 | [LinkedIn](#) | [GitHub](#)

EDUCATION

Northeastern University
Master of Engineering (MEng)
Software Engineering Systems
Sept 2026 — Expected 2028
Toronto, Ontario, Canada

Gandhinagar Institute of Technology
Bachelor of Engineering (BE)
Computer Engineering · Gujarat Technological University
Graduated May 2025 | CGPA 7.48
Ahmedabad, Gujarat, India

SKILLS

Languages
Python (Advanced) · JavaScript (Advanced) · TypeScript · C++ · C · SQL · Java · PHP

Frontend
React · Next.js · Tailwind CSS · TanStack Query · Zustand · shadcn/ui · Framer Motion · HTML5 · CSS3

Backend & Data
Node.js · Express · REST APIs · MongoDB / Mongoose · MySQL · Redis · Socket.IO · JWT & RBAC · BullMQ

AI & Machine Learning
Machine Learning · Forecasting Models · OpenAI API · Speech & Vision Processing · Data Visualisation

Tools & Platforms
Git · GitHub · Vercel · Railway · VS Code · Linux · Windows

Beyond Code
Team Collaboration · Public Speaking · Retail Operations · Fitness & Gym Training

AVAILABILITY

Canadian study permit. Open to Co-op, internship and part-time roles; full-time over winter and summer breaks.

SUMMARY

Full-stack developer and Computer Engineering graduate. Architected Inventix, a multi-tenant retail ERP of ~74,000 lines of TypeScript with an offline-first point-of-sale, 227 API endpoints and role-based access control. Previously managed the grocery store I went on to build software for. Now an MEng Software Engineering Systems student at Northeastern University, Toronto.

EXPERIENCE

Gujarat Infotech Limited | Software Developer July 2025 — April 2026
Ahmedabad, India

- Designed and developed full-stack applications, including an admin dashboard for invoice and inventory management used for billing and stock tracking.
- Wrote, tested and maintained production code across frontend and backend in React, Next.js, Node.js and SQL, with debugging and performance refactoring.

Isaji Mart | Store Manager 2024 — 2025
Ahmedabad, India

- Managed daily retail operations — cashier desk, billing accuracy, cash reconciliation and staff supervision — plus inventory control across hundreds of SKUs.
- Turned that operational knowledge into product, specifying and building the store's invoice/stock dashboard and product website to replace manual registers.

PROJECTS

Inventix ERP | Multi-Tenant Retail ERP, POS & E-Commerce Platform 2025 — 2026
inventixerp.in

- Architected a multi-tenant retail ERP of ~74,000 lines of TypeScript — 227 REST endpoints, 72 application routes and 33 data models — on Next.js, Express, MongoDB and Redis.
- Built an offline-first POS on IndexedDB (Dexie): idempotency-keyed sync, FIFO drain ordering, exponential-backoff retry, a multi-tab lock preventing duplicate sales, and a cashier-facing drawer that resolves 409 stock conflicts.
- Implemented a 5-level role hierarchy with ~35 fine-grained permissions resolved via Redis-cached lookups, plus TOTP two-factor auth and full audit logging.

Stack: Next.js 16, React 19, TypeScript, Express, MongoDB, Redis, Socket.IO, Dexie / IndexedDB

NexSight | AI-Powered Analytics & Prediction Dashboard May 2024 — May 2025
github.com/AdnaanMansuri2003

- Developed an AI-powered dashboard for data visualisation and prediction, making complex datasets readable and actionable.

Stack: Python, Machine Learning, Data Visualisation, Forecasting, React, Computer Vision

Isaji Mart | Invoice & Stock Admin Dashboard + Product Website May 2025 — June 2025

- Developed an admin dashboard for invoice generation and stock management, replacing manual registers and streamlining daily business operations.

Stack: React, Next.js, Node.js, MySQL, Tailwind CSS, Dashboards

Also built: Fixo Appliance — appliance service platform (www.fixoappliance.com) · Ontario Appliance Service — freelance client website (melodic-squirrel-b72843.netlify.app)

INTERSHIPS

Motion Cut | Python Programming Intern Jan 2025 — Apr 2025

Coding Raja Technology | Machine Learning Intern Jan 2024 — Mar 2024
