

Mohammad Adnaan Mansuri

adnaan.mansuri2003@gmail.com | +1 (437) 430 8083

EDUCATION

GANDHINAGAR INSTITUTE OF TECHNOLOGY (GTU)

GUJARAT TECHNOLOGICAL UNIVERSITY

BE IN COMPUTER ENGINEERING

Grad May 2025 | CGPA 7.48

DBMS SCHOOL

HIGHER SECONDARY (SCIENCE)

Grad May 2021 | Percentage 69 %

COURSEWORK

UNDERGRADUATE

Applied Mathematics

Data Structures & Algorithms

Database Management System

Object Oriented Programming

Computer Organization & Architecture

Operating System

Computer Network

Machine Learning : Linear Models
to Deep Learning

SKILLS

PROGRAMMING

Languages

- Advanced: Python, JavaScript
- Intermediate: C++, C
- Novice: Java, PHP

Tools

- Git • GitHub • VS Code
- Linux • Windows

Framework & Library:

- React JS • Next JS • Tailwind • CSS
- MySQL • Node JS • Express • SQL
- HTML

OTHERS

- Fitness & Gym Training
- Team Collaboration
- Public Speaking

EXPERIENCE

GUJARAT INFOTECH LIMITED | SOFTWARE DEVELOPER

July 2025 - Present | Ahmedabad

- Designed and developed full-stack applications including an admin dashboard for invoice and inventory management. Wrote, tested, and maintained code, performed debugging, and collaborated with teams to enhance system performance and user experience.

PROJECTS

NEXSIGHT | MAY 2024-25

 NexSight

- Developed an AI-powered dashboard for data visualization and prediction, enabling actionable insights from complex datasets. Implemented machine learning models for forecasting and built a scalable, user-focused system.

ISAJI MART | MAY 2025 - JUNE 2025

Live Website

- Developed an admin dashboard for invoice and stock management, streamlining business operations and inventory tracking. Built a product display website to showcase items and improve customer accessibility.

ONTARIO APPLIANCE SERVICE | ONGOING

Live Website

- Developed a responsive service website for Ontario Appliance Service as a freelance client project, enabling users to view appliance repair services and submit inquiries efficiently. Improved user experience through intuitive design and optimized performance.

PROJECT HIGHLIGHTS

- Developed NexSight, an AI-powered dashboard for data visualization and prediction
- Built real-time AI interaction systems integrating vision and speech processing
- Created scalable web applications using React, Next.js, and Node.js

INTERNSHIP

CODING RAJA TECHNOLOGY | MACHINE LEARNING INTERN

Jan 2024 - March 2024 | Remote

- Developed a machine learning-based dashboard to analyze data and generate insights, improving decision-making and user experience. Collaborated with teams to ensure model performance, scalability, and timely deployment of solutions.

MOTION CUT | PYTHON PROGRAMMING INTERN

Jan 2025 - April 2025 | Remote

- Developed and contributed to project-based tasks during a Python internship, demonstrating strong problem-solving skills and applying theoretical knowledge in practical scenarios. Showcased dedication and effectively delivered solutions aligned with project objectives.
